AMAZON

— with Marcia & Leslie

Have you always dreamed of visiting the Amazonian Rainforest? If botanizing in Brazil is on your bucket list, but you'd prefer to travel stress-free in rustic comfort; along with the safety of a small group of like-minded plant lovers, this is the trip for you!

Come cruise with us on Marcia's family riverboat! Over the last twenty years Marcia's uncle, Captain & Biologist Gilberto Castro, has created an amazing experience especially designed for seeing nature. You'll enjoy air-conditioned rooms with en suite bathrooms, wonderful meals, easy daily botanizing hikes, swimming, and other optional activities, along with plenty of peace and quiet. We'll take special motorized canoe trips through the forest within arm's reach of many amazing plant species & orchids off the beaten path. Wonderful opportunity for artists and photographers. No transferring to new hotels or traveling by bus. Just relaxed cruising and daily exploration, along with botanizing, art, and personal wellness activities guided by Marcia & Leslie, plus 1-on-1 time. Get your cameras, plant ID keys, and sketch books ready. AND get ready to relax and make new plant and travel friends in real life!

It's like plant glamping!
